

# BIOSTART<sup>®</sup> DFT

## BIOSTART<sup>®</sup>

BIOSTART<sup>®</sup> DFT is a ready to use dry fertilizer treatment containing four proprietary strains of Bacillus and Brevibacillus that have been selected for their ability to increase plant health and crop yield.

### MINIMUM GUARANTEE

- Active Bacillus:  $2.5 \times 10^9$  viable spores per gram

### APPLICATION RATE

- 12.8 oz/acre

### APPLICATION GUIDELINES

- BIOSTART<sup>®</sup> DFT is a liquid concentrate recommended for the enhancement of dry fertilizer.
- Mix well before use. Natural settling of bacillus may occur.
- Can be mixed with tap water (chlorine containing) and chlorine free water.
- BIOSTART<sup>®</sup> is compatible with most herbicides, pesticides and fungicides but once mixed with other products should be used within 4-6 hours.

### TIME IN TANK

- Apply on fertilizer within 8-12 hours of mixing.
- Apply on fertilizer within 4-6 hours when combined in tank with fungicides and/or pesticides.

### PACKAGE SIZE

- 1 gallon pails (6 per case)
- 2.5 gallon bottles
- 5 gallon pails
- 15 and 55 gallon drums
- 275 gallon totes
